PROTOCOL

Client to server messages

Connection made.

The following message is sent just once by the web-client on creation of the websocket connection between front and backend.

```
{ "type": "connection" }
```

Likert

```
{ "type": "likert", "name": "string", "value": "number" }
```

Server to client

Press

Set the radius of circle and ring of press animation.

```
{ "type": "press", "circle": "number", "ring": "number" }
```

Material Type

Set the current material type.

```
{ "type": "materialIndex", "value": "number" }
```

Gesture Type

Set the current gesture type, e.g. "TAP".

```
{ "type": "gestureType", "value": "string" }
```

Goto slide

View moves to a given slide.

```
{ "type": "goto", "slide": "number" }
```

Slide numbers are defined as follows:

- 0 - Front matter
- 1 - Consent
- 2 - Likert
- 3 - Press
- X - Closing matter
